SUMMARY

I am a driven and passionate Front-End Developer with knowledge in ReactJS, TypeScript, and Next.js. Skilled in creating responsive and dynamic web applications, I work well in collaborative environments and am dedicated to continuous learning. Proactive and adaptable, I possess strong problem-solving abilities and a keen eye for detail. My teamwork skills and commitment to delivering high-quality, efficient web solutions make me a valuable asset to any project.

PROFESSIONAL EXPERIENCE

Front-End Developer at TheSoilCompany – *Nov/2024 – Nov/2026*

- Led the development and system analysis of a comprehensive internal platform managing laboratory exams, client relations, data analytics, and financial operations.
- Engineered both a robust web system (Next.js) and a cross-platform mobile application (React Native), ensuring a seamless user experience across desktop and mobile devices.
- Implemented scalable architecture utilizing TypeScript, Zustand, and TanStack Query to handle complex data states and maintain high code quality.
- Designed and refined user interfaces in Figma, transforming complex laboratory workflows and financial dashboards into functional, intuitive layouts.
- Actively collaborated with cross-functional teams to integrate the front-end with C# APIs, optimizing application performance and data synchronization.
- Technologies used: Next.js, React Native, TypeScript, Zustand, TanStack Query, Figma, Git, HTML, CSS.

Front-End Developer at Retornar - *September/2022 – October/2024*

- Created and maintained the front-end of web applications and e-commerce platforms for the internal system.
- Collaborated with the design team to implement responsive and user-friendly interfaces that enhance user experience.
- Optimized web applications for maximum speed and scalability, ensuring efficient performance across different browsers and devices.
- Participated in code reviews and worked closely with back-end developers to integrate APIs and ensure smooth data flow.
- Technologies used: React.JS, Typescript, Git, Amazon Web Services, HTML, CSS.

Front-End Developer at CODIE.DIGITAL - *Jul/2021 – Sep/2022*

- Developed custom landing pages, e-commerce sites, and institutional websites tailored to client specifications.
- Worked directly with clients to understand their needs and translate their requirements into functional and visually appealing web solutions.
- Ensured all websites were mobile-friendly and compatible with various devices and screen sizes.
- Tested and resolved cross-browser issues to ensure consistent performance across all major browsers.
- Technologies used: HTML, CSS, Javascript.

EDUCATION

Web Development at UNOPAR – *June/2021 – Dec/2023*

- Higher education technology course.
- Technologies learned: HTML, CSS, Javascript.

High School with Computer Technical Course – *February/2012 – December/2014*

- Technologies learned: HTML, CSS, PHP

OTHER COURSES

- Next.js Authentication and Token Management at Alura
- AWS SQS: Messaging and System Decoupling at Alura
- React: Writing with Typescript at Alura

LANGUAGES

- Portuguese – Native
- English – Advanced (C2 Proficient)
